Janesville, April 22d, 1862.

IMPERIAL WINE TTERS

ARE made from a pure and unadditerated Wine, which is about double the usual strength of other Wines, and is imported by only one house in the United States. Also, from the following valuable Roots, Herbs, &c., viz: Solomon's Seat, Spikenard, Camomile Flowers, Gentian, Wild Cherry Tree Bark, and Bayberry.

WE CHALLENGE TEED WORLD to produce

THEIR EQUAL! We do not profess to have discovered some Roots "known only to the Indians of South America," and a cure for "all diseases which flesh is helr to," but we claim to present to the public a truly valuable preparation, which every intelligent Physician in the country will approve of and recommend. As a remedy for

INCIPIENT CONSUMPTION, Weak Lungs, Indigestion, Dyspepsia. Diseases of the Nervous System. Paralysis, Piles, Diseases poculiar to Females, Devility, and all cases requiring a Tonic,

UNSURPASSED!

For Sore Throat, so common among the Clergy, they are truly valuable.

For the aged and infirm, or for persens of a weak constitution—for Ministers of the Gospel, Lawyers, and all public speakers—for Book-Respers, Tailors, Seamstresses, Students, Artists, and all persons leading a acdontary life, they will prove truly beneficial.

As a Beverage, they are wilelesome, innocent, and delicious to the taste. They produce all the exhiliarating effects of Brandy or Wine, without intexticiting; and are a valuable remedy for persons addicted to excessive use of strong drink, and wish to retrain from it. They are pure and entirely free from the poison contained in the additorated Wines and Liquors with which the country is flooded.

These Bitters not only CURE, but PREVENT Discase, and should be used by all who live in a country where the water is bad, or where Chilis and Fevers are provalent. Being entirely innocent and harmless, they may be given freely to Children and Infants with Impunity.

Blystchma Clararnes and temperature advocates an punity.

Physicians, Clergymen and temperance advocates, as an act of humanity, should assist in spreading these truly rainable HITTERS over the land, and thereby essentially aid in banishing Drunkenness and Disease.

hardest and meanest. When being taken to Richmond after he was made a prisoner, he was compelled to subsist for three days upon four dry biscuits, and other prisoners

had a shorter allowance even than that. It

is from the rebels whom the government

treats with so much delicacy and "respect-

ful consideration" that our soldiers are suf-

fering these things! We are entitled to hope that Gen. Sigel has captured some 2000 of the rebels; and f he has them in his grasp, let us hope that he, too, will know how to retaliate in such a manner as will teach the butternut savages a lesson that they will not soon forget .- Chicago Tribune.

GARIBALDI'S MOVEMENTS IN ITALY .-Garibaldi's movements have startled all Europe. Victor Emanuel, eager enough to possess Rome, cannot afford to quarrel with France, and France still guarantees the inviolability of the Pope's temporalities. Neither does he care to provoke war with Austria just now for the possibility of getting Venetia. He is sensible, on the other hand, of the debt of gratitude under which he is placed to Garibaldi, and when the latter began to call for recruits, remonstrated with him in vain. He then issued a counter proclamation to Garibaldi's appeals, and warned the young men of Ituly not to yield to the entreaties of their intropid but rash leader. These steps have been taken in vain. Late advices contain reports of the operations of Garibaldi in Sicily, of his speech declaring that Rome must be had, and in effect that he would do as he pleased with the united Italy he had made. The English and French papers unite in denouncing his course as headlong and ill-timed. It certainly puts Victor Emanuel in the awkward position of being Muslins, Jaconets, Cambries, Brilliants, &c. obliged to fight against his old friend and for his bitterest fues, should be adhere to his determination to check the uprising. Should be not interfere, France would not tolerate attacks on her garrison at Rome, Boots and Shoes, so that if the Italian monarch wishes ever so well in his heart for the success of Garibaldi, he could not venture to give him even the negative support of letting him

> REBEL LOSSES IN RICHMOND BATTLES .-The Richmond correspondent of the Charles

ton Mercury writes: "Mr. Crocker, superintendent of the army intelligence office, states that his books show between 11,000 and 12,000 wounded in the battles before Richmond, and thinks the whole number, including those in private houses not reported to him, will be about 12,500. Gen. Lee, I am told, esti-mates the killed at 3,500. To these must be added a great many who were disabled by exhaustion, want of food and good wa ter, so that the sum total would amount perhaps, to 18 000 or 20,008. The per centage of deaths among the wounded has been heavy, owing to the hot weather. have heard it put at eighty per cent, but this is foolish. No case of amputation above the knee is said to have recovered, but this I also doubt."

RAILROAD ACCIDENT .-- Last Tuesday evening, when the train on the Milwankee and Western railroad was within about a mile and a half of Watertown, a Bohemian woman approached the track, and after pausing a moment to see whether she could get over, made the attempt and was instantly struck by the engine, thrown several rods, and so hadly injured that she died immediately. The train stopped, put her on board, and brought her to the depot. In her house three small children were found lying together, having apparently just been put to bed. Her husband was away in the barvest fields.

A butcher named Bell died at New Albany, last Thursday, under the following peculiar circumstances: Some time during l'uesday afternoon, ho was engaged in skinning a cow which had died from some unknown disease. While thus engaged, he was bitten on the arm by a fly which had been feeding on the carcass. The bite excited no attention but soon began to awell and inflame, and became very painful.— The swelling rapidly extended to all parts of the body, and at an early hour Thursday morning be died in great agouy.

DAILY GAZETTE.

REBEL BARBARISM.—The rebels have begun in terrible earnest their " retaliatory" measures against Gen. Pope, by inflicting measures against tren rope, by initiating revolting cruelties on his soldiers who fell into their hands in the battle of Culpepper Court House. Capt. Gustavus Hummer, of the 3d Wiscousin, taken prisoner at Winchester during Banks' retreat, and who is one of the recently archanged was in is one of the recently exchanged, was in this city on Sunday, on his way to Wisconsin on a short trip to his family. Captain Hammer saw, on his return from Richmond, Lieut. Widvey, also of the 3d Wisconding of the start of the consin, and until April last on Gen. C. S. Hamilton's staff, who was taken prisoner at Cedar Mountain. He had been without food for sixteen hours, and was in irons. He was assured that the treatment he was receiving was only a foretaste of what he might expect. He was told, too, that his treatment was only retaliatory upon Gen. Pope for his recent order concerning condiseation. Copt. Hammer informs us that the fare he himself received was of the hardest and meanest. When being taken to Richmond after he was made a prisoner, he was compelled to subsist for three days upon four dry biscuits, and other prisoners had a shorter allowance even than that. It is from the rebels whom the government treats with so much delicacy and "respectful consideration" that our soldiers are suf-

We are entitled to hope that Gen. Sigel has captured some 2000 of the rebels; and if he has them in his grasp, let us hope that he, too, will know how to retaliste in such a manner as will teach the butternut savages a lesson that they will not soon forget .- Chicago Tribune.

GARIBALDI'S MOVEMENTS IN ITALY .-Garibaldi's movements have startled all Europe. Victor Emanuel, eager enough to possess Rome, cannot afford to quarrel with France, and France still guarantees the inviolability of the Pope's temporali-ties. Neither does he care to provoke war with Austria just now for the possibility of getting Veneria. He is sensible, on the other hand, of the debt of gratitude under which he is placed to Garibaldi, and when the latter began to call for recruits, remonstrated with him in vain. He then issued a counter proclamation to Garibaldi's appeals, and warned the young men of Italy not to yield to the entreaties of their intrepid but rash leader. These steps have been taken in vaiu. Late advices contain reports of the operations of Garibaldi in Sicily, of his speech declaring that Rome must be had, and in effect that he would do as he pleased with the united Italy he had

made. The English and French papers unite in denouncing his course as headlong and ill-timed. It certainly puts Victor Emanuel in the awkward position of being obliged to fight against his old friend and far his bitterest fees, should be adhere to his determination to check the norming. Should be not interfere, France would not tolerate attacks on her garrison at Rome, so that if the Italian monarch wishes ever so well in his heart for the success of Gar-ibaldi, he could not venture to give him even the negative support of letting him

Rebel Losses in Richmond Battles .-The Richmond correspondent of the Charles-

ton Mercury writes: "Mr. Crocker, superintendent of the army intelligence office, states that his books show between 11,000 and 12,000 wounded in the battles before Richmond, and thinks the whole number, including those in primates the killed at 3,500. To these must be added a great many who were disabled by exhaustion want of food and good water, so that the sum total would amount CHEAPER THAN EVER. perhaps, to 18 000 or 20,008. The per centage of deaths among the wounded has been heavy, owing to the hot weather. I have heard it put at eighty per cent, but this is foolish. No case of amputation above the knee is said to have recovered,

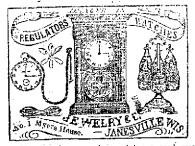

but this I also doubt." RAILROAD ACCIDENT .-- Last Tuesday evening, when the train on the Milwaukee and Western railroad was within about a mile and a half of Watertown, a Bohemian woman approached the track, and after pausing a moment to see whether she could get over, made the attempt and was instantly struck by the engine, thrown several rods, and so badly injured that she died immediately. The train stopped, put her on board, and brought her to the depot. In her house three small children were found lying together, having apparently just been put to bed. Her husband was away in the harvest fields.

A butcher named Bell died at New Albany, last Thursday, under the following peculiar circumstances: Some time during Tuesday afternoon, he was engaged in skinning a cow which had died from some pulmown disease. While thus accorded her nnknown disease. While thus engaged, he was bitten on the arm by a fly which had been feeding on the carcass. The bite excited no attention but soon began to swell and inflame, and became very painful.— The swelling rapidly extended to all puris of the body, and at an early hour Thursday morning he died in great agony.

For Sore Throat, so common among the Clergy, they are truly valuable.

For the aged and infirm, or for persens of a weak constitution—for Ministers of the Gospel, Lawyers, and all public speakers—for Book-Keepers, Tsitors, Soamstresses, Sudents, Artista, and all persone leading a sedentary life, they will prove truly beneficial.

As a Bevorage, they are wholesome, innocent, and delicious to the taste. They produce all the exhibitanting effects of Frandy or Wine, without intoxisting; and are a valuable remedy for persons addicted to excessive use of strong drink, and wish to retrain from it. They are purs and antirely free from the poison contained in the adulterated Wines and Liquors with which the country is flooded.

These Bitters not only CURS, but PREVENT Disease, and should be used by all who live in a country where the water is bad, or where Chills and Fevers are provalent. Being entirely innoceut and harmless, they may be given freely to Children and Infants with impunity.

Physicians, Clergymen and temperance advocates, as an act of humanity, should sessist in spreading these truly valuable BITTERS over the land, and thereby essentially aid in banishing Drunkenness and Disease.

There is one thing made clear by the President in his letter to Horace Greeley. It is that he believes he has the power to destroy slavery. He says-"If I could save the Union without freeing the slaves I would do it, and if I could save the Union by freeing all the slaves I would do it, and if I could do it by freeing some and leaving others alone, I would also do that." He does not ask congress to put this power into his hand by any law, but he assumes that he alone can free all the slaves, if it is necessary to save the Union. He has that power, if the necessity arises. The necessity gives him the nower, and not the constitution nor congress. It is the war power ing in the track of the Indians. The wocentered in his hands as commander inchief. This is the one great and important acknowledgement made in this letter .-There has been some doubt, heretofore, whether the President considered himself the depositary of this tremendous power, but here it is plainly acknowledged. "I would do it"-I would free all the slaves if necessary to save the Union. The reason why there has been doubt as to the views of the President on this point is that in modifying the proclamation of Gen. Fremont, he complained that that instru-

the President must do so too. But this, it appears, is not so, in his view. He alone has the power, and not generals in the field to us. Having clothed himself with this mighty power, he takes with it the responsibility of acting under it. He judges of the ne cessity of the case, and of the time when that necessity begins to exist in its full force. The difference between the President and thousands of loyal men, to-day, is that the time for him to act existed long ago. They believe there has been too much delay already. They think he has no right to sacrifice the lives of loyal people and their money at the rate he is now doing it, and distract the general government by to avoid hurling the thunderbolt of emancipation, which would knock the foundation from under the rebellion and destroy it at once. Can be not see, as we see, that a proclamation of emancipation made last the case proves this view to be correct, we spring and an invitation to the slaves to trust that it will tend to onlighten the pubcome to our armies would have so unsetthed the social fabric of the south as to have

It was thought by "plain people" that if a

general commanding a department must

regulate martial law by acts of congress,

their slaves, or expelled them by force from our camps. We believe this has prolonged the war and rendered the final saving of the Union more doubtful than at first. It is for advocating the policy of emancipation that " radical" men are denounced as abolitionists, and charged with a desire to violate the constitution, by those who affect to be better supporters of the government than they. We show by the President's letter that he does not consider it a violation of the constitution to proclaim liberty to all slaves. We say to him do it-the necessity now exists. He says, wait awhile, perhaps I can save the Union without do ing harm to slavery. We answer, you are

Three days after, his entire force

and all the property of the army were this side of the Chickshominy. That there should be so many stragglers does not appear to me to be a necessary consequence. That hundreds and thousands of men should have broken away from their regiments, should be wandering about, without rations or purpose, seems remarkable, unless there has been a total relaxation of discipline in the army. I said yesterday that the army would profit by a season of rest, under favorable influences. It absolutely requires not only rest but reorganization. This, I am told, will speedily follow. I understand, that new corps and divisions are to be formed, and new commanders given them.. Gen. Foster, now at Newbern, so much distinguished under Gen. MORNING DISPATORES. NEW YORK, Aug. 27. Tribune's correspondence gives the fol owing extraordinary statement relative to

the tenderness of the rebels towards Gen. McDowell: The attack of Stuart's cavalry upon Catlet's Station seems likely to prove as rich a

mine for correspondence as the one by the same daring officer to the rear of the peninsular army. Among the trophies carried off were \$10,000 dollars in cash, belonging to the quartermaster's department of Gen. Pope's army, and his own commissions as brigadier general and major general. The latter, however, was recaptured by one of ferior force of guerrillas, and is the most our soldiers, who found it in the suddirbags disgraceful and cowardly act of the war. of a rebel trooper, which was left behind in the hurry of departure.

A captain in the Pursnell legion in Col. Simpson's regiment was lying hid in a house by the railroad track, and heard Gen Stuart give positive orders to spare Gen Gen. Pope's and destroy what was not of public importance. The order was implicitly obeyed although the wagons of Gens. McDowell and King were close at hand. They were not disturbed but every thing in Gen. Pope's was turned out, his official papers sorted out and carried off, and his letters from his wife and other private individ unls, strewn over the ground or torn into tal is lying around loose. The Fredericksburg correspondent of the

Pribune, dating Sunday, says: Musketry firing was heard this morning. A contra band who came in yesterday, reports that we were licking the rebels, and that we had captured thirteen guns. A lieutenant of cavalry came in last evening, and corrroborated the contraband's story, but says the number of guns captured was sixteen, and that when Stonewall Jackson's force reach. ed the Rappahannock, at Bennett's ford, some 18 or 20 miles from here, and Mc Dowell's forces were on the south bank of the river. He says they secreted them selves under cover of the woods, and that Jackson's forces passed them and attempted to ford the river. While in the attempt Gen. Pope's troops opened a destructive fire, and at the same time McDowell's men threw themselves on their rear, thus beinging them between two fires. This officer says that this portion of Jack

son's forces, he cant say how many, were utterly annihilated, and that the river was red with rebel blood. Their reports I give you for what they are worth. The story is believed here, and also that fighting is going on and the above will turn out to be rue. Our pickets in front of the town have been doubled during the past two days, and every precaution to ward off a surprise has call at Janesville, July 15th, 1862.

The Herald's Washington dispatch says the condition of affairs in Maryland is not entisfactory to loyal Union men. It is well known that the robels there are openly organised in every county in the state, and

ed their plantations for them and returned it has originated, has in certain quarters Sibley asks that the 7th regiment, or com- public affairs was decidedly more hopeful panies to the number of a full regiment, be than for some time past. The President is past and the point of danger turned. The recent political arrests are justified

on the ground that the parties charged was such as to discourage enlistments. The Government does not intend nor desire to be understood as intending to interpose any obstacles to the freest criticism of the public means and measures. Its policy in suppressing the rebellion is regarded a legitimate subject of popular discussion, but the rebellion itself must not be defended nor government measures opposed to the prejudice of the recruiting service. CHICAGO, August 27.

Extension of the Braft.

In consequence of a report that the time for the draft bad been extended in Illinois and Indiana, Gov. Salomon telegraphed to the war department, and received the following answer :

Washington, Aug. 25, 1862. To Governor Salomon: An extension of time for volunteering has not been granted in Indiana and Illinois. EDWIN M. STANTON.

Gov. Morton, of Indiana, however, has

given notice that the draft in that state will be postponed until the 15th of September. Gov. Washburne, of Maine, gives notice

that the draft in that state will be postponed until the 10th of September.

The President's Power of Emancipa-

There is one thing made clear by the President in his letter to Horace Greeley. It is that he believes he has the power to destroy slavery. He says-"If I could gave the Union without freeing the slaves I would do it, and if I could save the Union by freeing all the slaves I would do it, and if I could do it by freeing some and leaving others alone, I would also do that." He does not ask congress to put this power into his hand by any law, but he assumes that he alone can free all the slaves, if it is necessary to save the Union. He has that power, if the necessity arises. The necessichief. This is the one great and important acknowledgement made in this letter .--There has been some doubt, heretofore, after the Indians. whether the President considered himself the depositary of this tremendous power, but here it is plainly acknowledged. "I would do it"-I would free all the slaves Indians. Without doubt they were emissif necessary to save the Union. The reason why there has been doubt as to the views of the President on this point is that character of the present outcreak indicates in modifying the proclamation of Gen. Fremont, he complained that that instrument interfered with an act of congress. It was thought by "plain people" that if a general commanding a department must regulate martial law by acts of congress, the President must do so too. But this, it appears, is not so, in his view. He alone

nor congress. Having clothed himself with this mighty power, he takes with it the responsibility of acting under it. He judges of the ne cessity of the case, and of the time when that necessity begins to exist in its full force. The difference between the President and thousands of loyal men, to-day, is that the time for him to accessisted long ago. They believe there has been too much delay already. They think he has no right to sacrifice the lives of loyal people and their money at the rate he is now doing it, and distract the general government by to avoid hurling the thunderbolt of eman-slarming it for the safety of its north-westcipation, which would knock the founds ern frontier, and requiring the retention tion from under the rebellion and destroy it at once. Can he not see, as we see, that a proclamation of emancipation made last spring and an invitation to the slaves to come to our armies would have so unsettled the social fabric of the south as to have prevented the cultivation of their crops for food, and produced such alarm in the minds of Jeff Davis' soldiers that they the blame upon Indian agents, we deem it the blame upon Indian agents, we deem it

their slaves, or expelled them by force from our camps. We believe this has prolonged the war and rendered the final saving of the Union more doubtful than at first. It steamboats, two months ago, overheard a is for advocating the policy of emancipa. tion that "radical" men are denounced as abolitionists, and charged with a desire to department of this state, in conversation violate the constitution, by those who affect with a Mr. Spencer, an Indian trader on to be better supporters of the government the Sioux Reservation, make use in sub than they. We show by the President's stance of the following language: letter that he does not consider it a viola- derstood the Indian character as well as to all slaves. We say to him do it-the necessity now exists. He says, wait awhile, perhaps I can save the Union without do ed office holders under Buchanau, to foster waiting too long, Mr. President. It will bave at last burst forth in the terrible massoon be too late. Besides, the institution overwhelmed our frontier settlements. We you would save is not worth any sacrifice, have collateral evidence in support of this but ought to be cleared out of the path of our view of the case; and although, in justice progress, and our garments cleaned from to human nature, we may acquit the author progress, and our garments cleansed from the foul leprosy which makes us " uncleau" among the free and civilized nations of the

Letter from Dr. Palmer.

U. S. GENERAL HOSPITAL, YORK, Pa., Aug. 20, 1362. EDITORS GAZETTE :- Enclosed I send you a list of all the soldiers belonging to Wisconsin regiments in the hospital, and their date of admission, &c.

I have been here in charge of this hospital since July 7th; have received 1048 patients; have returned to duty 134; five have died, and there are 904 remaining, f om 217 different regiments.

Our accommodations are sufficient for 1000. The buildings occupied are threefourths of a mile in length, heautifully sitlated, and in a very healthy locality. Our patients are mostly from McClellan's

army. Over 500 were in the various battles before Richmond. Enlisting is going on rapidly, and Penn-

sylvania can raise her full quota without a draft. I see that Rock county is not behind in

her duty, and may she in the present crisis

put forth the full amount of her strength. Please direct your paper to me at the U. S. General Hospital, York, Pa., and oblige, Most respectfully, HENRY PALMER,

Brig'e Surg. in charge of Hospital.

THE INDIAN WAR ON THE MINNE.

White Men at the Bottom of the Sav-age Outbreak.

From the St. Paul Pross, August 21. A careful consideration of the evidence which has accumulated so far, in counce tion with the Indian massacres, forces upon us the conviction that white men are at the bottom of it.

The evidence taken before the coroner's inquest, held at Acton, in Meeker county, shows, upon the testimony of one of the woty gives him the power, and not the constidions left a white man came along, following in the track of the Indians. The wocentered in his hands as commander-in- man called him in and showed him five dead bodies-men and women-lying upon the floor. He laughed, and said, "they have got the nose bleed!" He followed on

Again, we are informed that Nelson Roberts, well known to many of our readers, has stated that for weeks past, white men-Missourians- have been among the aries, sent among them to stir them up to vile deeds.

the presence of some directing intelligence of a higher order than that of the Indian. The fact that remote tribes like the Yank

tonnais and the Cut Heads are moving in concert, indicates this. The fact that a large force, said to number two thousand, have attacked a fortified artillery post, like Fort Ridgely, indicates this. Such an attack is without and precedent in Indian history that now occurs

has the power, and not generals in the field The fact that the Indiaus are butchering missionaries who have spent their lives among them, and who in ordinary disturbances would possess great influence over them, shows that from some cause they have been excited to a terrible degree of bitterness and ferocity. They are, it seems, even slaughtering the half-breeds of their

own tribe.

In addition to these evidences, we have any number of rumors, all pointing in the same direction.

We are forced to the conclusion that this outbreak is part of a deliberately concerhere of a large number of troops who otherwise might be differently engaged.

If a further development of the facts in the case proves this view to be correct, we trust that it will tend to enlighten the public mind as to the character of the foe with whom the nation is now engaged.

A fact of the atmost significance in connection with this subject came to our knowledge some time since, and in view of the

Here, evidently, is one of the germs of a systematic attempt on the part of the oustng harm to slavery. We answer, you are the discontents among the Indians that

of this infamous suggestion of any intention to bring about the borrible atrocities which have marked its adoption, he and his co-laborers must still be responsible in a fearful degree for the black catalogue of murder and crime which has so shocked and startled the country.

## Last Night's Report.

Sr. Louis, Aug. 25. Dr. Thomas M. Hope, brother-in-law of Gen. Pope, has been paroled from Alton prison for one week, to report semi-weekly to the commandant of the prison. The Baileck and Essex Guards have re-

turned from the Missouri river, having destroyed or removed all along that stream. The body of Lt. Col. Bischoff, of the 3d Missouri volunteers, who died at Helena, has been brought here for burial. Col. Burris, from Fort Leavenworth, has been stationed at Kansas City, with 6,000

men and four pieces of artillery.

Sr. Louis, Ang. 26. Special to Chicago Tribune.—Another Illinois regiment arrived to day, and went through the streets cheering for the Union. were without arms or uniforms .-There are plenty of the latter here, but red tape may delay delivery to the new Illinois

Eighteen more slaves were emancipated yesterday, and five to day, by the provost marshal general. The local provost marshals throughout the state have been authorized to grant free papers to claves proven to belong to rebels.

and then fleeing to the brush. They are being hunted down by Merrill's cavalry. Our troops now in Missouri are everywhere living on the rebels, in accordance with recent orders.

FORTRESS MONROE, August 22. Yesterday General McClellan spent much of his time at the Point, in citizen's dress, observing what was going on, but apparentby without wishing to attract the attention of the army of stragglers, so abundantly recruited from the army of the Potomac. There are various rumors concerning his future position and movements. One is that he will be relieved from active duty, either by his own request or the will of the command in co-operation with Pope, and another still imputes to him the intention to resign. The army of the Potomac, as cannot be otherwise than, for the time, at | ment. cast, affected by the fact.

Rumor asserts that a disagreement has arisen between him and Gen. Halleck, from whom he receives his orders. That a difterence has arisen between them as to the policy of evacuating the Peninsula, is quite certain. Gen. McClellan believed he could yet go to Richmond by the route he had was expected to obey them. It is not improbable that Gen. Halleck thinks that Gen. McClellan has taken more time in executing the order to evacuate the Peninsula than was necessary. The order bears early sular army. Among the trophies carried date in August, and nearly or quite twenty off were \$40,000 dollars in cash, belonging days have been consumed in carrying it into | to the quartermaster's department of Gen effect. The last thing that Gen. McClellan cid was to protest against it, and receive peremptory and spirited reiteration of the Three days after, his entire force arder. and all the property of the army were this side of the Chickshominy.

That there should be so many stragglers does not appear to me to be a necessary consequence. That hundreds and thouof men should have broken away aanda from their regiments, should be wandering about, without rations or purpose, seems remarkable, unless there has been a total relaxation of discipline in the army. I said yesterday that the army would profit by a season of rest, under favorable influences. It absolutely requires not only rest but reorganization. This, I am told, will speedily follow. I understand that new new commanders given them. Gen. Fos-ter, now at Newbern, so much distinguished under Gen. Burnside, will, it is said, be placed at the head of a corps. Some of the most distinguished brigade commanders are to have divisions; and many other changes it is said are contemplated, that will remould and revive the remnants of the army of the Potomac, and bring into the field a new army-an army of veterans, under tried leaders.

The embarkation at Newport News, Hampton and Old Point is going on brisk-ly to day. I hear it said that Gen. Keyes' corps will be left in this vicinity.

Seringfield, Mo., Aug. 23.

Gen. Brown has issued an order requiring all persons in the district who have not taken the eath to report in person to the nearest provost marshal for the purpose of taking the oath and giving sufficient bonds for the faithful observance thereof. All persons who fail to comply with this order by the 25th of this month will be removed by the propost marshal general outside the federal lines, and notified that, if hereafter found within the lines without proper au-thority, they will be arrested and placed in close confinement. The reason for mak ing this stringent order is the fact that there are a number of persons who have not yet taken the oath, and the general commanding has positive evidence that they keep up a direct line of communica-tion with the enemy.

Sr. PAUL, August 26.

New Ulm was attacked on Saturday, and the fight continued till late in the evening, so that up to the 25th Col. Sibley had received no intelligence of Judge Flanders, commanding at that point, but he entertained great apprehensions that his entire force had been cut off and the town and its inhabitants destroyed. Col. S. has been expectwould have fled homeward to save their a duty to advert to it. It shows that the families? Instead of that we have guard feeling of the Indians, from whatever source and if he is still holding out, instant measures for his relief would be taken. Colonel

ed their plantations for them and returned it has originated, has in certain quarters Sibley asks that the 7th regiment, or companies to the number of a full regiment, be rising is subdued, and the sooner they take the field the better. He says we have probably 4,000 or 5,000 warriors to meet, sooner or later, and as it is a life and death struggle on their part, we may as well face the facts at once, for the season during which military operations can be conducted on the Indians is very brief, and should be

improved to the utmost. Although the village of New Ulm was nostly burned by the savages, on Saturday night that part of it where the people were crowded together was deemed safe, and it is believed they would hold out until the

relief sent by Col. Sibley could reach them.
L. A. Evans, mayor of St. Cloud, writes the Governor, Sunday, that a committee of the most reliable citizens of that place who had applied to visit the scenes of the recent reported murders and ascertain the facts, had just returned. They went as far as Paynesville, where they found 200 persons from the vicinity of that place and Norway Lake. They had seen and conversed with persons there who had made their escape from the Indians, and had witnessed the massacre of their friends and relatives. A German, living about seven miles from New Ulm, came here yesterday with his wife and wo children.

The Indians made an attack on his house shout noon, Monday 18th, his wife, with his ather, mother, sister and brother were in a field harvesting, and the children only were in the house. The Indians attacked the children with hatchets, inflicting frightful gashes about the head and arms. Two of the children, aged four and five years, were killed outright. A little boy, one of the children brought to this city, has fourteen distinct gashes about his head, breast, and arms! The other child brought here, a baby about 18 months old, has two or three gashes on its head. The fiends then proceeded to the field and shot the old man, his wife, daughter and son. The mother of the children escaped to the woods and secreted herself. The father was absent at New Ulm when the murder was committed and reached home in the evening. His wife came from her hiding place as soon as possible, he got his two wounded children and wife in a wagon and started for this

Wm. D. Bourat, a clerk in W. H. Forbes' store at Redwood, arrived here yesterday, and makes the following statement: On Monday a large force appeared in front. The Indians fired into the store and wounded one of his companions in the arm and side. The other men ran up stairs, and the Indians took possession of the store. Bourat heard one of them say, "Let's go up and kill them, and get them out of the way;" and he determined to make a dash for his life. He rushed down stairs and succeeded in getting some 200 yards from the store, when he received a heavy charge of buck-shot in the side, which brought him to the ground. Another shot was fired at bim, which took effect in the left leg. They then came up to him, stripped off his clothes and shoes, and piled some logs over him to prevent his escape, promising to come back and cut him up.

He succeeded in extricating himself from

the logs, and crawled away, and cluded the search of the Indians. He made his way in excruciating torture to Glencoe, and from thence to Carver and to this city. He is much exhausted, but with great care may re-

To-Day's Report. [Reported Exclusively for the Daily Gazette.]

MORNING DISPATCHES. NEW YORK, Aug. 27.

The attack of Stuart's cavalry upon Catlet's Station seems likely to prove as rich a mine for correspondence as the one by the same daring officer to the rear of the penin-

Pope's army, and his own commissions as brigadier general and major general. The latter, however, was recaptured by one of our soldiers, who found it in the saddlebags of a rebel trooper, which was left behind in he hurry of departure. A captain in the Pursnell legion in Col. Simpson's regiment was lying hid in a house by the railroad track, and heard Gen. uart give positive orders to spare Gen,

McDowell's staff baggage train, but seize Gen. Pope's and destroy what was not of public importance. The order was implicitly obeyed although the wagons of Gens. McDowell and King were close at hand. They were not disturbed but everything in Gen. Pope's was turned out, his official papers sorted out and carried off, and his letters from his wife and other private individcorps and divisions are to be formed, and uals, strewn over the ground or torp into bits.

The Fredericksburg correspondent of the Tribune, dating Sunday, says: Musketry firing was heard this morning. A contra band who came in yesterday, reports that we were licking the rebels, and that we bad captured thirteen guns. A lieutenant of cavalry came in last evening, and corrroborated the contraband's story, but says the number of guns captured was sixteen, and that when Stonewall Jackson's force reached the Rappahannock, at Bennett's ford, some 18 or 20 miles from here, and Mc-Dowell's forces were on the south bank of the river. He says they secreted them selves under cover of the woods, and that Jackson's forces passed them and attempted to ford the river. While in the attempt, Gen. Pope's troops opened a destructive fire, and at the same time McDowell's men threw themselves on their rear, thus bringing them between two fires.

This officer says that this portion of Jackson's forces, he cant say how many, were utterly annihilated, and that the river was red with rebel blood. Their reports I give you for what they are worth. The story is believed here, and also that fighting is go-ing on and the above will turn out to be true. Our pickets in front of the town have been doubled during the past two days, and every precaution to ward off a surprise has been taken by Burnside.

The Herald's Washington dispatch says, the condition of affairs in Maryland is not satisfactory to loyal Union men. It is well

Paints!

Paints! known that the rebels there are openly organised in every county in the state, and there is reason to believe they are fully prepared with arms, and only await an oppor tunity to raise the black flag of rebellion. The military authorities are strongly urged to require disarming immediately of all who will not take the oath of allegiance.

Times' Dispatch.—The cabinet had a meeting, to day; the general feeling over

than for some time past. The President is past and the point of danger turned.

The recent political arrests are justified on the ground that the parties charged was such as to discourage enlistments. The Government does not intend nor desire to be understood as intending to interpose any obstacles to the freest criticism of the publie means and measures. Its policy in sup pressing the rebellion is regarded a legitimate subject of popular discussion, but the rebellion itself must not be defended nor government measures opposed to the prejudice of the recruiting service.

CHICAGO, August 27. Special to Tribune from Cairo. - On Saturday last a train of curs on the Memphis and Charleston road, three miles beyond Courtland, attacked a train which was in charge of a detachment of 42d Illinois. Eight rebels killed. Federal loss two wounded and two missing.

AFTERNOON DISPATONES.

ST. PAUL, Aug. 27th. The Indian who was the means of saving number of people at Yellow Medicine was in this city, yesterday. He received the congratulations of our citizens, and in the evening was introduced to a large audience, assembled for the organization of a home guard. In anticipation of this call he had vritten the following:

I am a Dakota Indian, born and reared in the midst of evil. I grew up without knowledge of any good thing. I have been instructed by Americans and taught to read and write. This I found to be good. I became acquainted with the sacred writings. and there learned my vileness. At the present time I have fallen into great evil and affliction, but have escaped from it, and with 54 men, women and children, without moccasins, without food and without a blanket, I have arrived in the midst of a great pso ple, and now my heart is glad. I attribute it to the mercy of the Great Spirit.

The translation of his name is "Other

Day." In regard to the recent raid he said be heard there was trouble at the lower ageney, and knowing that it was not in his power to prevent it, he thought the best thing he could do was to save the lives of people at the upper agency. He said he had been a member of the church for several years, and that his religion taught him what to do, and that the Great Spirit approved his conduct. He received several presents and quite an amount of money from citizens for the interest he took in the escape of the

OUR BATTERY .- The Madison Patriot has the following enthusiastic and just notice of Lt. Harlow's company:

A Fine Company.—This morning a very fine company of apry and active young men marched to Camp Randall. They are commanded by Lt. Harlow, and destined for the 12th battery, and are said to repre-sent the flower of the Janesville young men. Their appearance was much admired, and Janesville may boast of them, for it will take the picked men of the best of cities to equal them in physique, bearing and address.

FOR THE OLD REGIMENTS .- About 200 men passed through this city Monday evening to join the old regiments. Eighty of these were recruited by Lt. A. J. Hunt for Col. Daniels' cavalry, mainly from Beaver

KEYS FOUND .- Two keys have been left at this office for owners.

ANOTHER UNFORTUNATE!-We are in formed that John Bradley, of Farmington, Jefferson county, in this state, a robust man, and who has a good trade, (a mason) turned up last week with the loss of the fore-finger of his right hand. Such misfortunes we hope will not be common in Wisconsin.

BELOIT COLLEGE.-The fall term will commence on Wednesday, Sept. 3d. Applications for admission may be made on Tuesday or Wednesday.

The return of Prof. Mason from Europe will render the corps of instructors complete, and the purchases made by him sbroad for the library and apparatus will make the facilities for education more full than ever before,

SUSPENDED .-- The Columbus Journal has been auspended in consequence of all the printers in that vicinity having enlisted for the war.

WHAT HE GAINED !- The Danbury (Ct.) Times says that Hoag, who mutilated his hand with a brush-scythe to get rid of a draft, has since died, the profuse bleeding of the wound resulting in that way.

16 We learn from a private letter received vesterday, that the following persons, members of Capt. Wheeler's company, are in Patterson's Park hospital at Baltimore: Bradshaw, Edward Miles, C. M. Densmore, Bradshaw, Edward Miles, C. M. Densmore, M. B. M. ERRELL. C. A. Pierce, Wm. McClure, Louis Anderson, and E. C. Small. The writer says

" none of them are particularly dangerous." TWELFTH BATTERY .- Lieut. Harlow and his men have orders to leave on Monday for

Corinth. They will go to Madison again on Friday for their equipments. AT LARGE!-Pump Carpenter called on us this afternoon with a pass allowing him

to go beyond the corporate limits of the Dr. Clement, superintendent of the state sured of his present safety.

### Ladies' Relief Society.

The Ladies' Hospital Relief Society will hold a business meeting at Lappin's Hall, on Thursday, August 28th, at 4 o'clock P. M. There are urgent calls upon this society for aid, from both the south-west and from sick Wisconsin soldiers in Washington. A full attendance is requested, and it is hoped that many who have not heretofore found it convenient to assist in this enterprise will do so now. MARIA F. CLARK, Sec'y.

To the Subscribers to the County Bounty Fund.

Daily and pressing calls are made upon me for payment of the county bounty offered to volunteers. These calls, as the various companies are mustered into service, will be more frequent and orgent. The only means I have for payment is the money realized from the subscriptions to the fund, and I regret to say that the payments are not as prompt as they ought to be, or as the wants of the volunteers require. I therefore request ALL persons who have subscribed to pay in immediately. In no other way can I meet the calls on me, or can the good faith of the subscribers pledged to the volunteers be fulfilled.

S. Holdredge, Jr., County Treasurer. Janesville, Aug. 27, 1862.

OUR BATTERY .- The Madison Patriot has the following enthusiastic and just notice of Lt. Harlow's company:

A Fine Company.—This morning a very fine company of spry and active young men marched to Camp Randall. They are commanded by Lt. Harlow, and destined for the 12th battery, and are said to represent the flower of the Janesville young men. Their appearance was much admired, and Janesville may beaut of them, for it will take the picked men of the best of cities to equal them in physique, bearing and address.

FOR THE OLD REGIMENTS .- About 200 men passed through this city Monday evening to join the old regiments. Eighty of these were recruited by Lt. A. J. Hunt for Col. Daniels' cavalry, mainly from Beaver Dam.

KEYS FOUND.-Two keys have been left at this office for owners.

ANOTHER UNFORTUNATE!-We are informed that John Bradley, of Farmington. Jefferson county, in this state, a robust man, and who has a good trade, (a mason) turned up last week with the loss of the fore-finger of his right hand. Such misfor. tunes we hope will not be common in Wis-

The Blood is the Life.—No more shall the poor sufferers in our country languish, their constitutions racked and torn by trong and dangerous mineral medicines; they will come to the fountain of health, found in simple herbs and roots from nature's storebouse. Tills MOUNTAIN HERB PILLS, of innecent mountain piants composed, will reach and stop their distress, and cause the blood, renewed and cleaned, to carry through the body the elements of health; building up the broken constitution, and carrying life and health, where but for them would have been the week of hope—the feethe mean of suffering, at last coded by the cold hand of death. Do not let prejudice overcome your batter reason; do not look upon those Pills us only like others; do not let your despair, after trying everything else, provent you trem trying those. The blood must be pure, and then sickness is impossible. What a great and yet simple truth is this; it appeals to the common sense of all; it is the great key-stone of the healing art. # COMMERCIAL.

Janesville Wholesale Market. deported for the Jamesville Gazette, BUMP & GRAY. GRAIN AND PRODUCE DEALERS.

JANESVILLE, August 27, 1862. Receipts of wheat were fair to-day, and prices, under a strong competition between nillers and shippers, advanced lade per bushel. Sales of about 2000 lushels at 55.887 jc for good to extra milling spring, and 75.882 for shipping grades. Receipts of coarse grains were also fair, and market firm at our full quotations.

We make up prices as follows: BARLEY-choice samples in demand at 87s4fc; ommon quality 25±30c for 50 lbs.

CORN-pure white dent per 60 lbs. 25a3(c; mixed ots 23a25; ear do 18a20c.

OATS—good local and shipping demand at 24a25c er bushel.

RYE-in good request at \$5a40; per 60 lbs. TIMOTHY SEED—dull at \$1,12½(11,37½ per 46 fbs. POTATORS—choice Neshanock and Pinkeyes 250306 er bush...common qualities 15a20c. BUTTER-wanted at 8 a 10c for fair to choice roll.

Chicago Market.

TUESDAY, August 26-3 P. M. The leading markets to-day were dull, and lower owing to heavy receipts and a continued scarcity of currency. There was a very quiet feeling in the market for win'

tar grades of wheat, and prices declined it per bushel' with sales of No. 1 red 1,02s1,03, and No. 2 red at 97a 971/2; No. 1 apring was firm and in good demand at 41/4895, but No. 2 spring was dull and 3c lower, with alse at 80a81c. Flour continues dull and heavy.
Under liberal receipts the form market wasmuch depressed and prices fell lalice per bushel—closing firm at 64% of for fresh receipts of mixed in store. Outs were

inactive request and firm at 35½c. Rye was inactive and 1a2c per bushel lower, with sales at 38c. Nothing doing in barley. There was a good inquiry for good qualities of mess pork and the market was firm with sales of 500 barrels

at \$975. M. O. pork sold at \$3.00. Highwines were quiet with limited transactions at 29a2936c. Lake freights were firmer, owing to heavy receipts of corn, but there was no change in rates. Engagements were made at 9c for corn to Oswego, 4c for corn and 14)/20 for wheat to Buffalo.

The money market is exceedingly close and the banks are paying out treasury notes at par in in order to sup-ply their customers. The demand for currency by grain operators, whisky speculators and county represents tives is quite active and 10 per cent is easily obtained on all the money which the banks wish to loan,

Eastern exchange rules dull and heavy and there is considerable "cutting under" done by the various banks in order to obtain currency; the buying rates are ½ per cent discount a par. and the selling rates par old premium; on collections 1/2 per cent is the usual charge. Old demand notes are scarce and firm at 107 buying. The offerings of and the demand for gold are light and rates are almost nominal and ruled entirely by the New York mark t. The buying rates were quoted at 1141/2 and the selling rate 116. Bilver is scarce and firm a 108 buying and 110ali2 selling.-Journal.

FIFTY DOLLARS. The Nos. 1 and 2 machines are of great capacity and application for manufacturing purposes.
Our No.8 machines are especially adapted to alkinds of light and heavy

LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making, Har-ness Making, etc., etc. They are of extra size, with su-arm long enough to take under it and stitch the largest sixed dashes. There is scarcely any part of a Trim-mers' etitching that cannot be better done with them these by hand; so, too, line caving of time and labor is very great. The table under these machines is 24 inch-es long, and the shuttle will hold six times the usual quantity of thread. The large machines work as fast

is small ones. We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock stitch, and are destined to be as celebrated for Family Sewing and light manufacturing purposes as our standard mu-chines are for manufacturing purposes in general. We have always on hand

flomming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oll in Bottles, etc., etc.

We manufacture our own Needles, and would warm all persons using our machines not to buy any others. We know that there are needles sold of the most suferiwe know that there are needed so in year not represent or quality, at higher prices than we charge for the best. The needles sold by us are manufactured especially for our machines. A bad needle may render the best marking almost useless.

the two-fold riew of benefitting the public and ourselves.
The public have been swindled by spurious machine
made in imitation of ours. The metal in them, from
the iron casting to the smallest piece, is of poor quality.
Their makers have not the means to do their work well.
They are hid away in secret places, where it would be
the work with to have at their company the means. They are hid away in secret places, where it would be impossible to have at their command the propor mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always itable to get out of order, and are sure to cost considerable trouble and money to keep them in repair. The qualities to be looked for in a machine are: certainty after the processing freed, and processing in the processing of the control of the processing in the processing processing processing in the processing processi tainty of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation, with the least labor. Machines to combine these essential qualities, must be made of the best metal and finish ed to perfection. We have the ways and means, on a

grand scale, to do this.

The purchasors of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at rapid as well as slow rates of speed, but last long in the finest possible working order. Our machines, as made by us, will earn work money with less labor than any others, whether in imitation of ours or not. In fact, they are cheaper than any other machine as a gift.

Singer's Letter A Machine, Sthe best Machine in the word for Family Sewing and Light Manutacturing purposes; Price, (with ammer,) and beautifully ornamented,

FIFTY DOLLARS The Nos. 1 and 2 machines are of great capacity an pplication for manufacturing purposes.
Our No. 8 machines are especially adapted to al-inds of light and heavy

LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making, Raruess Making, stc., etc. They are of extra size, with at
arm long enough to take under it and satisfie that as
arm long enough to take under it and satisfie that as
well as the second of the satisfied dashes. There is scarcely any part of a Trimmers' stitching that cannot be better done with them
shas by band; so, too, the saving of time and labor is
very great. The table under these muchtuse is 24 inchor long, and the shuttle will hold six times the nauni
quantity of thread. The large machines work as fast
as small ones.

We would ask for our Letter A machines, the special
attention of Vost Makers and Dress Makers, and all
those who want machines for Light Manufacturing purposes. They embody the principle of the standard
machines, making like them, the interlock stitch, and
are dectined to be succlebrated for Family Sewing
and light manufacturing purposes in general.

We have always on hand

Hemming Guanges. Silk Twist, Linen

Hemming Gunges, Silk Twist, Linen

We manufacture our own Needles, and would warh
all persons using our machines not to buy any others.
We know that there are needles sold of the mast inferior
or quality, at higher prices than we charge for the best.
The needles sold by us are manufactured especially for
our machines. A bad needle may render the best mashine almost uselest.

We have made the above Reduction in Prices with the two-fold view of benefiting the public and ourselves. The public have been swindled by spurious machine made in imitation of ours. The metal in them, from the iron casting to the smallest piece, incipaor quality. Their makers have not the means to detheir work well. They are hid away in secret places, where it would be impossible to have at their command the propor mechanical appliances. It is only by doing a great business, and having catensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Hadly Made, are always inable to got out of order, and are sure to cost considerable trouble and money to keep them therepair. The qualities to be looked for in a machine are: cortainty of correct action at altrates of speed, simplicity of construction, great dwarbtity, and rapidity of operation, with the least labor. Machines to combine these ossential qualities, must be made of the best metal and finished to perfrection. We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at repid as well as slow rates of speed, but last long in the finest possible working order. Our machines, as made by us, will earn work money with less labor then any others, whether in limitation of ours or not. In fact, they are cheaper than any other machine as a gift.
